

TERRAIN ACCESS POLICY & UPHILL ACCESS GUIDELINES

Cooper Hill Ski Area, Inc. (dba “Ski Cooper”)(hereafter the “Area”) and the United States Forest Service (“USFS”) encourage the use of public lands. The Area is located on both public and private lands. While on Area property (public or private lands) you must abide by the Area rules and restrictions and should follow the Area’s recommendations. Private landowners adjacent to public lands may close or restrict access to their land and you must respect such closures and restrictions.

The following is a summary of Area access and Uphill access provided for your information. Other restrictions may exist periodically so be sure to check for temporary closures or restrictions before you access the Area.

Use of Ski Area Facilities

Please be advised that, under Colorado law, any person using any of the facilities of a ski area is considered a skier. You have duties under Colorado law (Ski Safety Act, CRS Title 33 Article 44), including but not limited to, controlling your speed and course at all times and maintaining a proper lookout. Using a ski area for any purpose can be hazardous and you assume all risks associated with such use.

WARNING

Under Colorado law, a skier assumes the risk of any injury to person or property resulting from any of the inherent dangers and risks of skiing and may not recover from any ski area operator for any injury resulting from any of the inherent dangers and risks of skiing including: Changing weather conditions, existing and changing snow conditions; bare spots; rocks; stumps; trees; collisions with natural objects, man-made objects, or other skiers; variations in terrain; and the failure of skiers to ski within their own abilities.

The Ski Safety Act includes, CLIFFS, EXTREME TERRAIN, JUMPS AND FREESTYLE TERRAIN as inherent dangers and risks of the sport.

General Access Information

During the Ski Season, between the hours of 7:30AM and 4PM there is a single point of entry into the Area. A Cooper Card (RFID Card) loaded with either a Cooper Season Pass or Day Pass specifically for that day is required for entry – this includes Uphill Access. Please see “Uphill Access” section below for detailed information about uphill access policies, including uphill activities during non-operating hours.

Access to Area trails/slopes or property at any time is at your own risk and you assume all risks associated with your use of Area property. Such risks include, but are not limited to, those listed above as well as falling and downed trees and limbs, deep snow conditions and tree wells, unstable ice and snow including but not limited to slides and avalanches, wildlife encounters, snowmobiles, snowcats, vehicles, and other equipment, slips, trips, falls, and other premises incidents, etc. Other dangers or conditions may also be encountered at any time.

The Area is a mountain environment that requires alertness, common sense, and caution. Read and obey all signs. Be sure your physical condition permits you to hike, ski, snowboard, or otherwise use Area facilities. Be aware that high elevation can exacerbate existing health problems. If you become lost outside the Area boundary, the Area has no obligation to provide any type of search and rescue or aid; assistance and medical care may be limited and take a long time to arrive, and you may be held responsible for the cost of search and rescue operations.

Due to fire danger, campfires and flame of any kind are strictly prohibited on the mountain and within Cooper’s permit boundary at all times.

Firearms are not permitted within Ski Cooper's permit boundary by employees or guests, except during hunting seasons with proper licensure, or by authorized law enforcement officers.

Any and all motorized vehicles, including but not limited to: snowmobiles, motorbikes, snowcats, ATV's, etc. are strictly prohibited from use on all Area trails, slopes, and mountain roads during both operating and non-operating seasons. Exceptions are US Forest Service vehicles, Cooper vehicles in the line of duty, and those given explicit permission from Area Management. All Cooper vehicles are marked with the Cooper logo and unique number.

It is unlawful to use closed trails/slopes/areas, regardless of how the trail/slope/area was accessed, and unlawful to access closed trails/slopes/areas by any route, including but not limited to, cutting through the trees from open trails, or moving up into a closed trail or closed section of a trail from an open section below. Entering closed trails/slopes/areas may result in a \$1000 fine (Colorado Revised Statute 33-44) and/or loss of pass/ticket privileges.

Cooper ski lifts open according to the following schedule: 10th Mountain Double Chair, 9am; Magic Carpet, 9am; Piney Basin Triple Chair, 9:30am; Little Horse T-Bar, 9:30am, Buckeye Platter, 10am. No one shall board a lift prior its scheduled opening time, except in the following circumstances: ski patrol – with permission from patrol director and lift ops manager; ski school staff for a morning training clinic only – with permission from ski school director and lift ops manager; athletes and coaches for predetermined race early lift load – with permission from lift ops manager; other circumstances, with proper permission. No member of the public shall load any lift prior to its scheduled opening time. No employee shall load any lift prior to that lift's scheduled opening time for free-skiing.

Sledding is not permitted at the Area at any time on any section of the mountain. This applies to any type of device that can be used for sledding, including but not limited to: sleds, toboggans, tubes, saucers, shovels, pads, trays, etc. Baby carrier packs (strapped to one's back or chest) are not permitted. Fat tire bikes, snowbikes, snow scooters, snow skateboards, and snowskates are not permitted at the Area. Please note that the only devices permitted on Area ski lifts are Alpine Skis, Telemark Skis and Snowboards.

Camping on Area property (including on-mountain and in parking areas), as well as overnight parking in any area parking lots is strictly prohibited at all times without express permission granted by Area Management.

Pets

Dogs, and any other pets, are not permitted on the mountain or in the base area of Ski Cooper at any time, 24 hours per day, 7 days per week from November 15th to May 15th, unless it is a registered service animal with proper identification. Furthermore, due to a number of serious safety concerns, all animals, including registered service animals, are strictly prohibited from riding the lifts at Ski Cooper, and under no circumstances shall access to riding on a lift be granted to any animal. Other accommodations will be made if necessary.

Dogs and any other pets in the parking area must remain on a leash or under voice command at all times. It is the responsibility of the owner to remove all solid waste produced by the animal. It is strongly suggested that all animals are left at home. Dogs can chase machinery or vehicles and be severely injured or killed. Likewise, they may endanger employees or other guests. Cooper is not responsible for injury to dogs, service animals, or other pets. The owner may be held responsible for any resulting damages or injuries to persons or property due to his or her animal, as well as loss of access/pass privileges. **PLEASE LEAVE YOUR PETS AT HOME!**

Drone Policy

Out of safety concerns for guests, employees, and resort property, as well as concerns for individual privacy, Ski Cooper (the "Area") prohibits the operation or use of unmanned aerial systems (UAS), or drones, by the general public – including recreational users and hobbyists – without prior written authorization from the Area. This prohibition includes drones used for any purpose whatsoever, whether filming or videotaping, or by media or journalists operating above or within the Area boundaries, including Chicago Ridge. This prohibition on drone operations or use extends to any drones launched or operated from Area property, as well as drones launched

from private property or USFS lands outside of the Area boundaries. Please contact Ski Cooper Risk Management, 800-707-6114, if you have any questions. Any authorized operation of drones must be in accordance with Federal Aviation Administration (FAA) rules and regulations, local law enforcement, and US Forest Service rules, as well as those policies separately established by the Area. These authorizations, regulations, and rules generally require an application to the FAA, certification, training, various restrictions, safety and national security clearances, and a specific limited purpose, as well as insurance coverage, indemnification requirements, and waivers and releases of liability. Any violation of this policy may involve suspension of your skiing, snowboarding, or uphill access privileges, in addition to penalties or other actions that may be taken by any of the other regulatory agencies noted above.

UPHILL ACCESS

Ski Cooper permits uphill traffic with limited restrictions. However, there are guidelines that all uphill users must follow to promote safety and to minimize conflicts between grooming operations, snowmobile traffic, downhill skiers, and any other activities that might be taking place at any time on the mountain, day and night.

Please note: Dogs, and any other pets, are not permitted on the mountain or in the base area of Ski Cooper at any time, 24 hours per day, 7 days per week from November 15th to May 15th, unless it is a registered service animal with proper identification.

Uphill access is an activity that Ski Cooper permits in the interest of promoting the enjoyment of the Ski Area and the National Forest. The following policy is intended to enhance the mountain experience for users of all kinds. Please remember, uphill access is a privilege, not a right.

Uphill access during operating hours is conditioned upon purchasing either a Cooper Season Pass or Cooper Day Pass online for access and signing Cooper's "UPHILL ACCESS POLICY AND USER GUIDELINES AGREEMENT" prior to visiting Cooper. Your Season or Day Pass validation is loaded onto your Cooper Card (RFID Card). Your Cooper Card will be scanned at Cooper's "Port of Entry" (there is only one entry point to access Cooper's Base Area or Trails). Ski Patrol will periodically check uphill routes during operating hours and may ask uphill users to stop and show their card. The card is required in order to gain access to Cooper during operating hours, 7:30AM – 4PM.

Complimentary uphill access is available between 4PM and 7:30AM. All those participating in Uphill Access activities between 4PM and 7:30AM are required to read and sign Cooper's "UPHILL ACCESS POLICY AND USER GUIDELINES AGREEMENT" which can be found on the Cooper website. After completing this step, an Uphill Card will be issued verifying that you have read and signed the agreement. This card can be picked up at the Ticket Window. There is no charge for this card. Periodically, night-time Cooper employees may ask to see this card. This card is not an RFID card and cannot be scanned at the Port of Entry for access during the operating hours of 7:30AM – 4PM. If you are accessing the Area outside of operating hours, Cooper strongly recommends that you wear fluorescent and/or reflective clothing visible from all directions to increase visibility, as well as a light source, such as a head lamp.

A COOPER CARD LOADED WITH EITHER SEASON-LONG OR SINGLE DAY MOUNTAIN ACCESS VALIDATION IS REQUIRED FROM OPENING DAY THROUGH CLOSING DAY FOR ACCESS TO SKI COOPER, REGARDLESS OF ACTIVITY.

Uphill Access Pass Conditions & Expectations:

1. Prior to opening day, Cooper Management reserves the right to remove any Uphill Access User from the mountain due to preseason activities, setup, safety concerns, or any other reason deemed worthy.
2. From opening day through closing day (late November/early December – early May), from 7:30am to 4pm there are 3 designated uphill routes. These designated routes are the only approved ways uphill from 7:30am to 4pm. Looker's left of *Trail's End* is the front side uphill route; looker's left of *Ambush* is the back side uphill route; looker's right of Low Road/(old) High Road to Motherlode Flats is the route from the Tennessee Creek Basin. Follow the yellow and blue Uphill Route signs as you go. If a trail that is a designated uphill access route is closed for any reason, or due to events on the mountain, the uphill route may be moved to another trail. For example, on a big race day, the front side uphill route may be moved to either Molly Mayfield or Pando, depending on where the race is taking place. Look for the yellow uphill signs and follow them. From 4pm to 7:30am (overnight), uphill access is allowed on all trails except those that are closed and those on which grooming operations are taking place (see the night's grooming plan and trail report located on the flatscreen at the bottom of the 10th Mountain Double Chairlift located on the east side of the Base Lodge just beside the Maze. A map of the designated uphill routes appears on the "uphill access" page on the Cooper website and hard copies are available at the Guest Services Window at the Base Lodge.
3. Be vigilant when ascending. The Area conducts operations on the mountain and in the base area 24 hours a day. Many of these operations continue year-round. Snowcats, snowmobiles, trucks, ATVs, skiers, riders, other Uphill Access users, etc. may be encountered at any time. Keep as far away as possible from all machinery: grooming operations may occur at any time and on any trail, stay away; stay completely off trails that are in the process of being groomed. Do not, under any circumstance, move toward grooming operations; operators may not see you and thus it is extremely dangerous.
4. Respect all closures, ropes, signs and warnings no matter what time of day or season. Uphill Access users may not enter any trails, slopes, or areas that have not been opened for the season or that are marked "Closed" for any period, as safety markings and pads may not be in place, and grooming, trail checks, construction, etc. may not be completed or may still be in progress and trees and limbs or other obstacles may be blocking terrain. If you are found ducking ropes and/or in closed areas, your access privileges may be revoked for the season.
5. Keep to the designated routes while ascending and remain visible from above at all times.
6. Access to all terrain parks is prohibited outside of normal operating hours, unless for an event authorized by Cooper Management.
7. All Uphill Access users must abide by all Area policies and rules, follow Area employee directions and instructions, and all Colorado State laws. Remember, if you are using any Area facilities, under Colorado law you are considered a "skier" and must abide by the CO Ski Safety Act.
8. As an Uphill Access user, accessing the Area before or after operating hours is at your own risk. If rescue or medical care or other assistance is required, if available, the response time may be limited and costs may be charged to you.
9. If traveling on the mountain at dusk, at night, in the early morning, in a whiteout, fog, or other conditions of low light and/or low visibility, fluorescent and/or reflective clothing visible from all directions is highly recommended to increase visibility, as well as a light source, such as a head lamp. It is your responsibility to avoid any vehicles and/or equipment also on the mountain.
10. If your presence on Area property presents a hazard or the Area's staff believes that you are impeding any Area operations, you may be directed to use a different location or to leave. You must follow any such direction.
11. Wildlife may be encountered at any time on Area property. Moose, bears, coyotes, etc. can be very dangerous. It is your responsibility to be aware of wildlife and keep your distance if encountered.

12. If, as an Uphill Access user, you decide to leave the Area boundary, you are responsible for understanding the risks. You may not enter, leave, or re-enter the Area boundary by crossing any ropes, closed gates, closed signs, or other boundary markers (one exception: Piney Ditch Road – it has a “closed” sign to help prevent lift access skiers from accidentally heading down the road. The Road may be used by Uphill Access Users unless stated otherwise by Cooper Management). The only authorized forest access point from Ski Cooper is located in the North Basin, just east of the base of the Piney Triple Lift.

If you plan to participate in uphill activities at Cooper, either during operating hours or outside of operating hours (24 hours a day) you must read & sign the agreement as of Opening Day at Cooper. Please click on this link to sign the agreement.
